CYTO TEAMS WITH JOINT VENTURE ON BALTIMORE CITY PUBLIC WORKS PROJECT

Columbia, Md. – Cyto Communications will provide community education and outreach services to Baltimore City’s Department of Public Works, Water and Wastewater division, as a member of the joint venture team of Hazen and Sawyer, PC/Patton Harris Rust & Associates. The multi-year contract will include managing public meetings, communication with project stakeholders, and liaison to community leaders.

“Projects like this one are vitally important to the City and to its residents,” said Rich Badmington, Cyto Communications managing partner. “It’s an honor to be given some responsibility for that trust.”
