PROGRESSUS THERAPY SELECTS CYTO TO SUPPORT ASSOCIATES

Columbia, Md. – Progressus Therapy, the nation’s leading provider of physical and occupational therapy and speech pathology services to school systems, has tapped Cyto Communications to support a strategic initiative designed to strengthen the company’s support of its therapists in the field. Progressus Therapy is a division of Educate Inc., based in Baltimore.

“More vigorous support for and a stronger relationship with their team of therapists will help Progressus remain the leader in their industry,” said Cyto Managing Partner Rich Badmington. “We are very pleased to be asked to help them plan and implement an effective program.”
