CYTO DEVELOPS CORPORATE IDENTITY AND WEB SITE FOR PROGRESSUS THERAPY

Columbia, Maryland – Progressus Therapy, the leading national provider of school-based therapy and early intervention services, partnered with Cyto Communications, LLC to develop its new corporate identity and Web site.

Progressus Therapy partners with hundreds of school districts and early intervention agencies across the country to serve the needs of tens of thousands of children with varying disabilities and levels of severity each year. Progressus customizes service delivery models to fit the needs of their partner school districts and improve the quality of life of the children they serve.

“Progressus is doing extraordinary work with the children and with the clinicians who make up the Progressus community,” said John Phelan, Cyto managing partner. “Achieving potential and rising above limitations are important elements of the Progressus experience and we believe the new corporate identity was designed to communicate these important ideas.”
